

**Online catalogue use  
exceeds expectations**

<http://pgfnz.infospecs.co.nz/>

Statistics from the use of the online catalogue have exceeded our expectations. In July and September use was about 6-7,000 searches per month but during the month of October people have obviously been doing some serious research and using the catalogue to find material. Over 22,000 searches were recorded.

Those done as a subject search have been broken down into broad subject areas. The key areas are:

Biomedical	1179
Data	271
Ethnicity	1708
Gambling	1134
Geographic	598
Internet	725
Law and business	1284
Pokies	742
Relationships	1145

Social	299
Therapy	1103
